The "Blue Book of Telephone Numbers" may be obtained from your Telephone Business Office. It provides a convenient method of listing numbers frequently called.

★The Federal Excise Tax of 10 per cent is not included in the above rates.

FOREIGN COUNTRIES

International telephone service is available to many points throughout the world. For information concerning this service, including the hours when reduced rates apply, call Long Distance or dial "Operator".
© New England Telephone & Telegraph Company 1956

emergency calls

Call or dial the number direct. Enter important numbers in these spaces:

FIRE	POLICE
DOCTOR	HOSPITAL

Call or dial "Operator" if you do not know the number, or if it is busy.

For the Telephone Number or Address of the nearest Federal Bureau of Investigation (F.B.I.) Office, call "Information".

REPAIR SERVICE—If a telephone is out of order

From Non-dial Telephones..... Call "Repair Service"
From Rockport..... Dial "4" and ask for "Repair Service"

BUSINESS OFFICE—For business transactions..... See Page 3

REVISED FOR CHANGES ARRANGED THROUGH MAY 17, 1956

Printed in U. S. A.

long distance calls

Long Distance Calls are handled by your regular Operator. Usually, she can get your connection while you hold the line.

Service is fastest when you call by number, naming the city or town and state, as for example: "Portland, Maine, SP ruce 4-9911."

If you don't know the number of the telephone you want to reach, "Information" may be able to get it for you. If not, your regular Operator will handle the call with the name and address you furnish.

Long Distance Calls may be placed in either of two ways, as follows:

STATION-TO-STATION—

When you will talk with anyone who answers at the called telephone or private branch switchboard. Timing to determine the charge for a Station-to-Station call begins when the called telephone or private branch switchboard answers.

PERSON-TO-PERSON—

When you tell the Operator you want to be connected with a particular person or with a particular telephone or department reached through a private branch switchboard. The rate for the initial period is higher than for a Station-to-Station call, but timing does not begin until you reach the person, extension telephone, or department specified.

Appointment and messenger calls take Person-to-Person rates, plus the cost of any messenger service performed.

MOBILE SERVICE

Many automobiles, boats, trains and trucks are now equipped for mobile telephone service. To reach these vehicles, call Long Distance, or dial the Operator, and ask for "Mobile Service Operator."

REDUCED RATES—

Charges to most Long Distance points, for both Station-to-Station and Person-to-Person calls, are reduced nights from 6 P. M. to 4:30 A. M. and all day on Sundays; also all day on Thanksgiving, Christmas and New Year's.

TO DETERMINE CHARGES

If you wish to be told the charge on a Long Distance call, please tell the Operator at the time of placing the call. After you have hung up she will compute the charge and call you back.

COLLECT CALLS

Charges for Long Distance calls given to an operator will be made to the called telephone if someone there agrees to accept them. When you wish to have charges made collect, please inform the Operator when placing the call.

On foreign points, information may be secured from the Long Distance Operator.

RATES FOR TYPICAL POINTS

Please refer to the list on the inside front cover of this directory.

general information

IDENTIFICATION OF EMPLOYEES

Employees who work on telephone equipment at customers' premises wear a round badge bearing a number, the blue seal of the Bell System, and the words "New England Telephone & Telegraph Co."

TELEPHONE DIRECTORIES

To insure an accurate and useful directory, we have compiled and checked the listings very carefully. Please verify your listing and report any inaccuracy to your Business Office. The Company assumes no liability for losses claimed in case of error.

ADVERTISING TELEPHONE NUMBERS

If you advertise or display your business telephone number, please make correction promptly if number is changed. Featuring residence telephone numbers or public telephone numbers for business purposes is not permitted.

TELEGRAMS BY TELEPHONE

Telegrams, cablegrams or radiograms may be telephoned in accordance with instructions shown under the Western Union listing in this directory. Charges may be included on the customer's telephone bill, or may be deposited in the coin box if made from a public telephone.

TELEPHONE EQUIPMENT

All telephone equipment on customers' premises is the property of the Company and with careful use will give good service. Equipment may be moved or removed only by the Company and may be connected only with apparatus or instruments installed or approved by the Company.

The Company does not sanction attachment of special devices to telephone instruments, except those furnished by it. Unauthorized attachments, supposedly an added convenience, may actually impair service.

USE OF SERVICE

Business rates apply when the usage is primarily or substantially for business or professional purposes, or if the service is furnished at a business location. Usage is restricted to the customer, his agents and employees engaged in the business.

Residence rates apply when the usage is primarily for social and domestic purposes. Usage is restricted to the customer's household.

PARTY-LINE SERVICE

On a party line, two or more customers share the same connection to the Central Office. Unavoidably, users of party lines may be delayed in placing or receiving some calls when others are using the line. Good service depends largely upon users' cooperation in limiting their conversations reasonably and giving immediate right-of-way to emergency calls. Proper adjustment will be made on a long distance call because of interruption due to an emergency.

USE OF PARTY LINES

Massachusetts General Laws, Chapter 166, Sec. 15c, as inserted by Acts 1955, Chapter 120, provides:

"Any person who shall wilfully refuse to yield or surrender the use of a party telephone line to another person for the purpose of permitting such other person to report a fire or to summons police, medical or other aid in case of emergency and any person who shall ask for or request the use of such party line on pretext that such an emergency exists knowing that no such emergency in fact does exist shall be guilty of a misdemeanor, and shall be punished by a fine of not less than fifty dollars nor more than five hundred dollars. Every telephone company doing business in the commonwealth shall print a copy of this section in a prominent place in each telephone directory published by it."

SERVICE FAILURE

Any service failure should be reported to Repair Service promptly. For any complete failure continued over 24 hours and brought to the Company's attention, a pro-rata adjustment of the monthly charge or guarantee will be made.

"BEEP" TONE

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line. Use of a recorder without this signal is unlawful.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

MAGNOLIA—ROCKPORT

Anderson 63

ROCKPORT

EXTENDED LOCAL CALLING

For Gloucester, dial 4 and give number to Operator.
For all other out-of-town calls, dial "Operator."

TO CALL ANOTHER CUSTOMER
ON YOUR OWN LINE

IF YOU ARE ON A PARTY LINE, you should have a card showing the name and special number of the other telephones on your line. To call such a telephone, follow the instructions on the card, dialing the special number, not the directory number. If you have no card, dial "Operator" for assistance and request a new card.

TO CALL FROM A COIN TELEPHONE

Lift the receiver, then deposit your coin.
For local calls—Listen for the hum of the dial tone, then proceed to dial the desired number in the usual manner.

If no charge is to be made for the call, the money will be refunded after the receiver has been replaced. If out-of-order conditions prevent the refund, dial "Operator" from another telephone and explain the case.

For out-of-town calls—Listen for the hum of the dial tone then dial "Operator." When the operator answers, give her the call.

HELP!

in an **EMERGENCY**

When time is short and minutes count, the YELLOW PAGES are your best bet. Simply turn to the proper classification and you can call the person you need quickly and easily.

In an emergency, in stormy weather, when you have forgotten something or whatever the need for buying information—the YELLOW PAGES are there, ready to serve you—always.

SAVE TIME

9 out of 10 use the Classified Telephone Directory

GLOUCESTER

District

Yellow Pages

JUNE 1956

NEW ENGLAND TELEPHONE & TELEGRAPH COMPANY

here's how to use these **YELLOW PAGES**

In this directory, you will find practically every local business or profession that has a telephone. They are all grouped together under "headings" . . . key words or phrases which best identify the nature of the products or services they furnish. These "headings" are arranged alphabetically. This makes the Yellow Pages as easy to use as a dictionary. And, like a dictionary, in the top outer corner of each page you will find a word which provides a clue to the types of businesses listed on that page.

To find a firm whose name you have forgotten but would recognize

Consult the heading which best describes the type of business in which the firm is engaged. A glance at the names of the firms listed there will enable you to recognize instantly the particular firm you wish to call.

To find a firm when you have only the address in mind

Refer to the heading which best describes the type of business in which the firm is engaged. A quick glance at the addresses of the firms listed there will usually reveal the name and telephone number of the firm you wish to call.

To find a brand name

First turn to the heading which best describes the general type of product or service you want. You can find the firms which handle the particular brand name you desire in the following ways:

1. Look for the familiar trademark of the product or service you have in mind. You will find listed under this trademark the names of authorized dealers in your area.
2. Look over the advertisements for those mentioning the brand name you have in mind.

To find a firm whose name you already know

Turn to the heading which best describes the type of business in which the firm is engaged. Many people find it much easier to select the name of the firm they want from the limited number of listings under a particular heading than from the many listings on a page in the alphabetical (white pages) directory. This is especially true if the name happens to be a very common one.

To find a product or service

Simply look for the heading which you think best identifies the product or service you have in mind, such as florists, taxicabs, milk, movers, etc. In most cases, the finding word or phrase which you think best describes the product or service

will be the one under which the firms you seek are listed. However, if these firms are listed under a different heading, you may find instead a cross-reference to the appropriate heading. Once you have found the correct heading, a review of the information each firm provides in its advertising will help you to select the one best qualified to serve your needs.

To find a firm when you don't know how to spell the name

DONAHUE ? Look under the
DONAGHUE ? heading which
DONAHOE ? best describes the
DONOGHUE ? type of business in
DONOHUE ? which the firm is
DONOHUE ? engaged. A review
of the businesses
listed there will

reveal the exact name of the firm you have in mind, and a glance at the firm's advertising will give added confirmation before you call.
